3. What is CAMP-S?

CAMP-S (Career Advisory and Mentoring Programs):

The goal of **CAMP-S** is to advice and mentor aspiring students from Agri, Non Agri domains and professionals on developing global mindset and business perspectives through constant engagement on the following areas,

- Market Developments
- Industry insights & Innovations
- Industry network building
- Policy environment

CAMP – S program will be career consulting for students and young professionals, providing them necessary career guidelines to excel according to their personal career aspirations. CAMP – S will connect the best human resources to the industries all over the world, matching industry needs and students’ aspirations, thus ensuring higher productivity of employees, good employee satisfaction and retention rate for the industry with greater impact.

The CAMP-S courses engages the mentors and advisors to work in alignment with Student Personal Career Aspirations.

The Learning pyramid of CAMP-S consists of three key elements as mentioned below:

4. What can I learn from CAMP – S?

- Skill Gap Reduction - We work such that the companies get benefited in terms of better-trained resources and we ensure that individuals know what to look for thus building the skill gap
- Internships - In various projects in applied agriculture sectors such as the Agro-based Industries Sector, Services Sector, Agricultural Engineering, Corporations, Agriculture Management and Commodity value chain financing etc.
- Curriculum - Thoughtfully structured curriculum, methodically planned and prepared by highly experienced domain Professionals
- Mentorship - Guides & Advisors would help individuals gain deeper understanding & experiences in their field. Mentor, Mentee mapping would be done based on an assessment of the individual's interests and aspirations
- Periodically Industry Best Experts and Practitioners would be invited to share their field experience and knowledge & their journey.

AGRI STARS

INTRODUCTION

AGRI STARS is a 3 year course under our CAMP-S initiative, for the students who are in their 1st or 2nd year of graduation. The course is thoughtfully structured to make them industry ready, keeping it in alignment with their career aspirations. The students in their graduation do not have clear idea about what the industry wants from them, this is why they suffer when they come out of colleges due to lack of practical exposure. We want to bridge the skill gap between what the industry wants from a student and what do they deliver. This 3-year course will be completely digital, where students will have their own digital profiles. Quarterly once reviews and mentor evaluation is put into place for better results. By the end of 3rd year, the students under AGRI STARS will be far more equipped with the required skill set as compared to any other student.

PRE REQUISITES

Currently in B.Sc. Agri/ B.Sc. Horti/ B.Tech Agri/

Diploma in Agriculture/ Horticulture/ Seed Technology/ Ag Engineering.

FINAL LEARNINGS

1. Improved industry linkage and networks
2. Professional outlook and increase in confidence
3. Holistic development through practical exposure

AGRI CHAMPS

INTRODUCTION

AGRI CHAMPS is a 1-year course under our CAMP-S initiative, for the students who are in their post-graduation. As the students have some basic knowledge of their course after completing graduation, the 3-year course is structured into a 1 year one for them. Equipped with the same features as a 3-year course, AGRI CHAMPS course will provide them with an extra edge when the students are just about to land in the professional world. The course will give them a realisation of their weak points as well as the solutions to overcome them, with the help of their mentors. The course will be completely digital, with students having their digital profiles along with quarterly twice reviews and mentor evaluations.

PRE REQUISITES

Currently in Post Graduate Diploma in Agribusiness Management; MBA-Agribusiness; MBA-Rural Management.

FINAL LEARNINGS

1. Improved industry linkage and networks
2. Professional outlook and increase in confidence
3. Holistic development through practical exposure

FARM RISERS

INTRODUCTION

FARM RISERS is a 1-year course under our CAMP-S initiative, especially for the students who are not from the Agricultural background. There are some students who are studying diverse courses but want to make their career in the Agricultural field. This course is for those students to give them an insight about the major opportunities in the Agricultural field, how to gain the required skill set, how to be industry ready etc. Their mentor will help them in each stage, to shape their future. The course will be completely digital with students having their digital profiles, along with quarterly twice reviews and mentor evaluations.

PRE REQUISITES

Currently in BBA; MBA; B.Sc. (Botany/Zoology); B. Tech Engineering;

FINAL LEARNINGS

1. Improved industry linkage and networks
2. Professional outlook and increase in confidence
3. Holistic development through practical exposure

INDUSTRY LEADERS

INTRODUCTION

INDUSTRY LEADERS is a 1-year course under our CAMP-S initiative, for the students who have already started their career and are currently employed somewhere. It happens that even though students start working, they still do not know what are their career aspirations and industry requirements. Because of this they struggle every day in the corporate world as they lack the required skill set and confidence, which was evidently not provided in their college days. We want to help those employees to gain the lacking skill set so that they can sit at par with the other employees. The course will be completely digital with employees having their digital profiles, along with quarterly twice reviews and mentor evaluations.

PRE REQUISITES

Employees in Agribusiness Industry; Rural Development; Retail and FMCG Industry

FINAL LEARNINGS

1. Improved industry linkage and networks
2. Professional outlook and increase in confidence
3. Holistic development through practical exposure
